THE 2023 CHRISTMAS COLLECTION

ADVENT CALENDARS, FESTIVE CHOCOLATES, GIFT SETS
AND CRACKING NEW YEAR'S GOODIES –
ALL OF COURSE ORGANIC + FAIR + BEAN TO BAR

Zotter stands for quality and innovation. All our chocolates and fillings are created fresh at our chocolate factory in order to comply with our high standards of quality. We process more than 400 organic ingredients, from the humble cacao bean to chocolate, from nuts to pralines, from berries to fruit layers – we make all of it ourselves. Additionally, manufacturing everything in-house enables us to create innovations like the magnificent Brown Butter Toffee. You can see all the things we've conjured up with chocolate in our huge range of Christmas chocolates.

Our Christmas range with English-language packaging

13 hand-scooped Christmas chocolates will make the festive season that much sweeter. They feature honey-glazed nuts, toffee, cinnamon apples, marzipan, pralines, brittle and more. 4 of these chocolates are entirely vegan, and we are also proud to present 4 completely new flavours.

5 wintery chocolate creations await, featuring candied almonds, gingerbread with a fruity plum and date filling, homemade mulled wine and more.

A novelty in our English line is the popular "Nut Cracker" from the Cheery & Nuts range, seductively delicious with a caramel and praline duo and some crunchy chopped peanuts. There are 2 sweet Choco Lollies – Snow Fairy and Almond Devil – sporting all-new and magical illustrations.

We've also put a new design on all of our hand-decorated Mixing stars, hearts and chocolate bars, and of course, the "Christmas Miracle" chocolate, sweetened only with coconut blossom sugar, is again back in the mix. Finally, we've also got scrumptious and seductive filled chocolates for St. Nicholas and New Year's.

Our Christmas range with German-language packaging

The Labooko range features pure, dark fine flavour chocolates, one sweet caramel bar and some delicious white chocolate. All gift sets have been newly curated, and we have a total of 9 Advent calendars waiting for you, sweetening the run-up to Christmas with hand-scooped chocolates, drinking chocolates, pure chocolates, and one in the shape of a very big and beautiful Christmas tree filled with handmade, organic bonbons.

For the year's end, we wish you a very "Happy New Year!" with a new hand-scooped chocolate mini in a tiny 20-gram format.

100% ORGANIC + FAIR + BEAN-TO-BAR

Our entire business is Fair Trade verified. We are a member of WFTO – the World Fair Trade Organization, which is the umbrella organization for global fair trade. The WFTO monitors business compliance with the 10 principles of fair trade like transparency, respect for the environment, the payment of fair prices and no use of child labour among others. For more on this, go to www.zotter.at/fair-trade and www.wfto.com

100% BEAN-TO-BAR: Zotter chocolates are produced starting from the bean in our bean-to-bar chocolate factory.

All the ingredients for the chocolate come from ORGANIC cultivation. The number of the organic board of control serves as identifying information. ORGANIC control number: **AT-BIO-402**

WFTO - LABEL OF EXCELLENCE

The independent NGO "Südwind" has closely examined all the WFTO's current ecology, transparency and social effectiveness credentials and has designated it exemplary in terms of credibility and social issues. The World Fair Trade Organization (WFTO) is the international umbrella association for more than 400 fair trade organisations in around 70 countries. In Austria, members of the WFTO are **ARGE Weltläden, EZA** and **Zotter**. In contrast to the Fair Trade label, the WFTO label isn't purely a product certification but has instead been created to designate organisations whose core business is fair trade. As a member of the WFTO, we are delighted to have received the label's highest score. You can find the independent label check online by clicking here: <https://siegelcheck.suedwind.at>

THE PROTECTION OF THE ENVIRONMENT

is a very important aspect of our corporate philosophy.

Our environmental protection and our environmental measures are ISO 14001 and EMAS certified. EMAS-certified companies are recorded in a Europe-wide register and are regularly checked and monitored on a national level by environmental experts approved by the environment department.

You can find our environmental declaration in German online at www.zotter.at

BIOGENIC PACKAGING & BIOPLASTICS

Around 90% of our packaging is biogenic and made from renewable raw materials. We use certified paper from sustainable sources and environmentally friendly colours for all our packaging. For the most part, we use bioplastics, which consists of renewable raw materials, is biodegradable and even compostable, compliant with the EN 13432 standard.

DESIGN

Andreas H. Gratz (A-H-G), Zotter's art director has created our beautiful designs with pen and tons of humour since 1994. www.a-h-g.at

ORGANIC SOY LECITHIN

We use soy lecithin from controlled organic cultivation in white and milk chocolates. Soy lecithin is guaranteed non-GMO and environmentally friendly, as no part of the rain forest is destroyed for its cultivation. Our dark chocolate does not contain soy lecithin.

STORAGE ADVICE

We do not use any artificial stabilizers or preservatives. For this reason, our goods are more temperature sensitive than other high-quality chocolate products.

Ideally you should store Zotter chocolates in a cool and dry place where the temperature is between 16 °C and 18 °C.

You should not put the chocolates into a fridge. This way they would lose their substance because the humidity would let the sugar crystallise. If the temperature is too high, though, it will result in the emission of cocoa butter which will settle as a white film on the surface of the chocolate. The loss of the cocoa butter will dry out the chocolate – hence, the flavour of the chocolate will suffer.
