The Easter and Spring Collection

Our chocolate range with English-language packaging

12 hand-scooped Easter chocolates with wondrous fillings and beautiful designs await. The latest additions to the range are our hand-scooped »Ostrich Egnog« with a homemade egnog filling and our vegan »Happy Bunny« with a refreshing lemon and almond filling. All fillings, pralines, toffee and fruit mousse varieties are homemade by us, just like the chocolate, which we produce at our chocolate factory – bean to bar, from the cacao bean to the finished, sublime chocolate bar.

Easter is coming around, and of course we've created new Easter bunnies and Easter eggs for the Mi-Xing range, our ever popular »From the Easter Bunny« from the Cheery & Nuts range, featuring a brand-new design, and a unique duo of soft pink strawberry couverture and a tender-melting cashew praline. The »Strawberry Bunny« chocolate lolly is sporting a super cute animal illustration, and the »Funny Bunny« bonbon box is filled with all-new, handmade bonbons.

For Mother's and Father's Day, we are offering lots of new, brightly decorated hearts and flowers. Hearts with Mum or Dad lettering are also available to order in advance. In addition, there is a selection of hand-scooped gift chocolates: »For the Most Amazing Mum Ever!« with a raspberry and red rose filling, as well as »For the Best Dad in the World!« featuring a boozy whisky filling. There are also pure chocolates with flower petals as a Labooko »Bouquet of Flowers« and some sweet chocolate bars as a Labooko »Thank You«.

Spring and summer will be fruity! We are happy to present some fruit-leaning and very berry chocolates from our hand-scooped standard ranges, one small, hand-scooped chocolate in a snack format, the one and only »Cheery & Nuts« chocolate and praline duo with a crunch and, as an alternative to the sugary goods, there's the »50% Milk Choco with Date Sugar«, crowned »best organic product of 2024«.

100% ORGANIC + FAIR + BEAN-TO-BAR

Our entire business is Fair Trade verified. We are a member of WFTO – the World Fair Trade Organization, which is the umbrella organization for global fair trade. The WFTO monitors business compliance with the 10 principles of fair trade like transparency, respect for the environment, the payment of fair prices and no use of child labour among others. For more on this, go to www.zotter.at/fair-trade and www.wfto.com

100% BEAN-TO-BAR: Zotter chocolates are produced starting from the bean in our bean-to-bar chocolate factory.

All the ingredients for the chocolate come from ORGANIC cultivation. The number of the organic board of control serves as identifying information. ORGANIC control number: **AT-BIO-402**

WFTO - LABEL OF EXCELLENCE

The independent NGO "Südwind" has closely examined all the WFTO's current ecology, transparency and social effectiveness credentials and has designated it exemplary in terms of credibility and social issues. The World Fair Trade Organization (WFTO) is the international umbrella association for more than 400 fair trade organisations in around 70 countries. In Austria, members of the WFTO are **ARGE Weltläden**, **EZA** and **Zotter**. In contrast to the Fair Trade label, the WFTO label isn't purely a product certification but has instead been created to designate organisations whose core business is fair trade. As a member of the WFTO, we are delighted to have received the label's highest score. You can find the independent label check online by clicking here: <https://siegelcheck.suedwind.at>

THE PROTECTION OF THE ENVIRONMENT

is a very important aspect of our corporate philosophy. Our environmental protection and our environmental measures are ISO 14001 and EMAS certified. EMAS-certified companies are recorded in a Europe-wide register and are regularly checked and monitored on a national level by environmental experts approved by the environment department. Zotter is awarded the **Eco-Management Award 2023** for best sustainable business development strategy. You can find our environmental declaration in German online at www.zotter.at

BIOGENIC PACKAGING & BIOPLASTICS

Around 90% of our packaging is biogenic and made from renewable raw materials. We use certified paper from sustainable sources and environmentally friendly colours for all our packaging. For the most part, we use bioplastics, which consists of renewable raw materials, is biodegradable and even compostable, compliant with the EN 13432 standard.

DESIGN

Andreas H. Gratze (A-H-G), Zotter's art director has created our beautiful designs with pen and tons of humour since 1994. www.a-h-g.at

ORGANIC SOY LECITHIN

We use soy lecithin from controlled organic cultivation in white and milk chocolates. Soy lecithin is guaranteed non-GMO and environmentally friendly, as no part of the rain forest is destroyed for its cultivation. Our dark chocolate does not contain soy lecithin.

STORAGE ADVICE

We do not use any artificial stabilizers or preservatives. For this reason, our goods are more temperature sensitive than other high-quality chocolate products. **Ideally you should store Zotter chocolates in a cool and dry place where the temperature is between 16 °C and 18 °C.** You should not put the chocolates into a fridge. This way they would lose their substance because the humidity would let the sugar crystallise. If the temperature is too high, though, it will result in the emission of cocoa butter which will settle as a white film on the surface of the chocolate. The loss of the cocoa butter will dry out the chocolate – hence, the flavour of the chocolate will suffer.
